

WALCOTT RESIDENTIAL

Hackensack, NJ

PROJECT TYPE:

Residential - New Construction

ARCHITECT:

Feinberg and Associates, P.C.

Hollister Construction Services has been retained as general contractor by Waypoint Residential to build a new luxury apartment building in Hackensack, NJ, known as Walcott Residential. Two adjoining properties, previously office and warehouse space, will be transformed into a 372,000sf multifamily community.

Walcott Hackensack will stand six-stories tall and feature a total of 235 luxury units on the top four floors and dedicated parking on the first two. Residents will also have access to a landscaped pool deck, a community lounge, a fitness center, an entertainment room and a pet facility.

Located in a transit-oriented location within walking distance to the New Jersey Transit rail station and numerous parks and restaurants, the new multifamily community will bring various benefits to residents looking to live in accessible, walkable downtown.
